

Brockton Signage Improvement Grant

Purpose

To cover a portion of the project costs for exterior improvements to the public-facing signage of existing buildings in settlement areas of Brockton, such as historic downtown Walkerton, Chepstow, Elmwood, Cargill and Pinkerton.

The program is intended to encourage the improvement and installation of pedestrian-scaled, attractive signage to buildings and facades on the part of property owners and tenants. It is not a property maintenance program, and designs and materials used must be of high quality to enhance the character of the settlement areas.

Perpendicular storefront signs are to be in keeping with the architectural character of a commercial storefront façade, and not detract from the building or any stated design direction. Back-lit illumination signs are not eligible for funding. All proposed signage must comply with the Municipality of Brockton's Sign By-Law and permitting process.

Signage should be attractive, durable, easy to read and complementary to the overall façade design. Sign scale should be in proportion with the building and should reflect the pedestrian scale of the streetscape.

Signs should complement the heritage character of Walkerton and Brockton's hamlets, while allowing for the creativity of individual businesses.
